

Welcome to our new newsletter - *Learn with Lianne*. Each week we will look at different oils, different topics related to oils and different ways we can incorporate them into our lives. We hope this newsletter will inspire you, uplift you and give you more education around your oils.

REFOCUS TIME

In last weeks edition of this newsletter I discussed the end of the financial year, and using it to review your goals and dreams. Did you notice whether you've remained on track? Or have those plans slipped a little?

Now is also a good time to review and refocus your health and well-being plans. Do I have enough medication to support my condition? Do I have the most accurate information about my condition? Am I doing all I can to support my condition? Am I working on my health daily to prevent future issues?

A good place to start your refocus on your health is an appointment with your general practitioner doctor. The way our health system is set up we still need our GP's for testing and diagnostic services. So make sure you check in with them and get the tests you need.

Then check who else is on your support team. Do you have a great naturopath, Integrative Dr of Medicine, or Dr of Chinese Medicine? Do you have a great massage therapist, Osteopath or Chiropractor? Do you have sound dietary advice? You might not need all of these practitioners but if you can afford one, they are good to have on your team.

Once you've got the right team in place, then focus on your aromatherapy needs. Do you have enough oils on hand? Are all your oils in date? Do you have enough carrier oils and bases? Do you have the really important preventative blends in products that you use every day? Do you have everything mixed up and ready to go? Are you connected with our aromatherapy community and continuing education?

Here's a list of popular oils for different needs:

Oil for pain and inflammation

- Ginger
- Peppermint
- Wintergreen

Blends for stress

- Bergamot
- Orange
- Frankincense

Blends for sleep

- <u>Lavender</u>
- Vetiver
- Marjoram

Blends for adrenal and hormonal balancing

- Black Spruce
- Clary Sage
- Geranium

Blends to assist your immune system

• Cinnamon

- Eucalyptus
- Lemon

Keeping your Aromatherapy Pantry full

Having an empty pantry or fridge limits what you can cook. It is the same with oils – what you can use them for is limited by the size of your collection. Not having the right oils available at the time you need them is frustrating, annoying and painful. There's nothing more annoying than needing Lavender for your sleep blend and you don't have any!

Do a stocktake of all the oils you have on hand. Print off our current selection guide below (or <u>download the PDF here</u>) and highlight anything you need. Write a wish list of all the oils you need and then check the current Savers to see what you can get for free. Don't wait, as things get tighter in the family budget, making things yourself and preventing illness must become a top priority!
